

ABSTRACT

THE ROLE PROGRAM OF POSYANDU REVITALIZATION IN THE EFFORT PROBLEM BAD GIZI HANDLING THROUGH CHILDS

(Study at Chief of Village of Labuhan Dalam In Sub district of Tanjung Seneng of Bandar Lampung)

By

Jeki Rikardo

Bad Gizi consuming is circumstance less heavy level in which is because of lowering consumes the energy and protein from everyday food and happened sufficient. Marking clinic from distinguishable bad gizi marginally marasmus, kwashiorkor or marasmic-kwashiorkor. Affect hereinafter from bad gizi at child is the happening of growth trouble at school in age child. This trouble will become seriously if is not handled intensively. To prevent the happening of bad gizi hence all childs have to be brought to Posyandu but along with the happening of economic crisis hence Program the Posyandu even follow downhill. Governmental for that cope to start returning Posyandu with the cymbal Program the Posyandu Revitalization in the effort bad gizi problem handling at balita. But after this Program walk still a lot of met by the bad case in gizi at society. Becoming the target of this research target is to know the role from program of Posyandu Revitalization to governmental effort in handling bad problem gizi at childs. Method used is descriptive method with the research type qualitative. Informant decision by using purposive sampling where informant election selected in intentionally pursuant to criterion which have been determined. And technique of data collecting through circumstantial interview, observation, and documentation.

Result from this research is the program of Posyandu Revitalization have run its role in the effort bad problem in gizi handling at childs, but at its road is a lot still have to be corrected again because still a lot of problem found in field like there still Posyandu owning improper equipments wear, and still find of crosscut common people of operational fund which ought to be passed to every Posyandu. But out side of that all this Program Posyandu Revitalization has walked better

because every Posyandu have felt the impact from this Program equally
Posyandu-Posyandu have felt the aid from this Program.

If government wish to realize the healthy Indonesia vision 2010 hence
government have to be more be serious again for the success of this program the
Posyandu Revitalization by performing a monitoring to every its activity.
